

## PASS MASTERS

### How to

- For this challenge you will be working in a team of two.
- Create two 2m x 2m boxes, 4m apart, and stand in your box opposite your partner.
- Player A passes the ball to Player B, and Player B controls it and returns it back.
- Continue this pattern and count how many times you can pass and control in 60 seconds.
- Each time the ball is successfully received and controlled in your box you will score 1 point.
- If the ball is not controlled in the box the pass should not be counted as a point, for example if the ball rolls away or doesn't reach the box. If this happens, do not give up and do not stop the timer, retrieve it as quickly as possible, bring it back to your box and carry on with your score until the 60 seconds is up.

### Equipment needed

- Ball
- Cones x 8
- Tape measure
- Stopwatch

### Scoring

- Working as a pair, count how many times you can accurately pass and control to one another in 60 seconds.
- The total score is awarded to each player.

### School Games Value

- Teamwork.
- Can you work collaboratively with a partner to get the highest score you can?

### School Games Leadership

- Use leaders to set up the activity, demonstrate how it's done, count the score, time the activity, encourage participants, coach the top tips, write down the scores.

### Top Tips

- Use the inside of your foot for an accurate pass.
- Work with your partner to get the best score possible.
- Use one-touch passes if you can.
